

Blinking Light Add \$2.50(A) each.

## Etched Enamel

The art is chemically etched onto the surface of the metal allowing for greater detail. The thickness of the pin is less than die struck enamel. Metal separations are required between colors. PMS match is available with this process.

Epoxy dome available at no additional cost. Laser firing available, add \$.12(A) per laser fired color plus additional set up costs.

**Any Custom Shape.**
